Assembly Instructions for ABT-soundmodule A7

Vehicles: A7

Assembly time: approx. 30 minutes

Attention: To guarantee optimal function and security of the ABT-Soundcontrol it is necessary to thoroughly read through the assembly instructions prior to work and to operate the installation as described.

Important steps to take before assembling the ABT Soundcontrol:

Before starting the installation, the error memory of the vehicle in which the Soundcontrol will be installed has to be read out.

In case of an error log entry:

- Please follow the manufacturer's instructions to resolve errors.
- After the rectification it is necessary to once again take a test drive of minimum 30 km.

Install the ABT Gateway only into vehicles which are error-free at the time of installation.

2 Scope of delivery

Please check the completeness of delivery before starting the installation. In case the delivery is incomplete, please contact ABT Sportsline GmbH.

Menge	Bild	Bezeichnung
