

ABT Sportsline 2012 – Press release **Three cheers for the new ABT QS3!**

It epitomises the new “urban off-roader” generation – the Q3. This SUV’s power, agility and compact dimensions are impressive indeed. In its **ABT Sportsline** version, you even get a bit more sportiness and extravagant looks. It’s three cheers for the new **ABT QS3**: Cheer it on in the rush hour, in front of a restaurant or the opera house. But the **QS3** is also huge fun to drive on motorways or winding country roads. And it has the horses to pull, err, well, a horse trailer.

For **ABT**, the “S” in **QS3** stands for very sporty, strong and speedy. So the company put in a bit more **ABT POWER**. The engineers have developed two variants that underline its sporty character and provide additional dynamism and power when driving it: The 2.0 TDI has 205 hp or 151 kW (production version: 177 hp/130 kW, the 2 litre TFSI has 270 hp or 199 kW (production version: 211 hp/155 kW). In conjunction with the **ABT** suspension springs, these engines’ performance potential is so ideally utilised that – we have to repeat it – this SUV deserves three cheers.

The **ABT QS3** is a very chic car, a sportsman in a tailor-made suit. This impression has been enhanced by this special automobile’s both powerful and reserved contours: Our designers have developed body parts that combine self-confidence with elegance and some extra exclusivity. The front grill is very striking, especially in combination with the front spoiler that makes the **QS3**’s face really unique. Door strip attachments, rear spoiler and a new rear skirt with the typical **ABT** exhaust pipes, make for much sportiness. To make this car’s outfit perfect, we recommend **ABT** sport wheels. The **CR** and **DR** are fully in line with the car’s silhouette. They are available from 18” to 20” and also in combination with high-performance tyres. All this makes this new model come into its own: After all, this **QS3** is a real **ABT** and part of a success story. SUV’s from Kempten have always been champions – be it “large” **ABT Touaregs** or compact **ABT QS3s**.
