

ABT Sportsline on the Essen Motor Show 2012 – ABT Golf VI GTI “Last Edition”

Sporty and fast "Golfs" have been carrying the three letters **GTI** since 1976. **ABT** was the first place to go for everyone who wanted even more dynamic and driving fun from the very beginning. Each generation of the Golf GTI became its own special outfit and more power. The sixth generation of the compact sports car also bears the magic abbreviation. For the Essen Motor Show **ABT** built a **Last Edition** for a special price.

The engine output is impressive, because due to optimized engine management (**ABT POWER**), the standard 211 HP (155 kW) become a dynamic 260 HP (191 kW). **ABT POWER S** makes the **GTI** even hotter: a new turbocharger, „Made in Kempten“, is used additionally in this case. The 2.0 TSI then has an output of a sporty 300 HP (221 kW) and even 310 HP (228 kW) and 400 Nm when referring to the series version with 235 HP (173 kW) and 300 Nm. Thanks to **ABT** chassis springs, the **GTI**'s centre of gravity is located about 25 mm lower, so the Golf can be driven even more sportily. The chassis setting, which was designed by the **ABT** racing experts, is especially good fun on winding roads. And in the extreme case, the powerful **ABT** braking system with its 345 mm discs also kicks in.

But an **ABT Golf GTI** is not only a hot piece of sports equipment for the road, it also looks like one: the bodywork package that designers have created underlines the car's pure dynamics: no matter how you look at the **GTI**, it is always impressive. Rear spoiler and rear skirt add-on, side skirts, front grill and skirt as well as the diagonal 4-pipe exhaust system form one unit. **ABT** engineers also designed a front lip, which provides a performance look in combination with the front skirt and the **ABT Daytime Running Lights**. The equally elegant as expressive coloring matches this: the paintwork featuring a deep metallic black harmonizes perfectly with the red accents.

One look at the Bavarian sports car will tell you that it's more than a "normal" Golf **GTI**. With its attractive price the **Last Edition** that is on display during the Essen Motor Show is hard to resist. **ABT** and **GTI**: these six letters have simply belonged together for three and a half decade.

The ABT Golf GTI – data and facts

ABT ENGINE TECHNOLOGY

Engine: 2.0 TSI, 1984 cc capacity
Performance tuning: **ABT POWER**
Performance: 260 HP/191 kW (standard: 211 HP/155 kW)

Engine: 2.0 TSI, 1984 cc capacity
Performance tuning: **ABT POWER**
Performance: 310 PS/228 kW (standard: 235 HP/173 kW)

Engine: 2.0 TSI, 1984 cc capacity
Performance tuning: **ABT POWER S**
Performance: 300 HP/221 kW (standard: 210 HP/154 kW)

ABT AERODYNAMICS

ABT front grille
ABT front skirt
ABT front lip
ABT side skirts
ABT rear skirt add-on
ABT rear wing
ABT daytime running light

ABT SPORTS WHEELS in 18 and 19 inches

Available also as complete wheel sets with high-speed tires

ABT EXHAUST TECHNOLOGY

ABT rear pipes

ABT SUSPENSION TECHNOLOGY

ABT suspension springs, lowering the centre of gravity about 25 mm

ABT BRAKE TECHNOLOGY

ABT brake system, brake discs 345 mm in diameter
