

## **ABT Sportsline 2012 – Press release CW22** **ABT POWER Days for young used cars from June 15<sup>th</sup> to July 13<sup>th</sup> 2012**

The **ABT POWER Days** for young used cars of **ABT Sportsline** are already well-established. Car drivers who want more power and driving enjoyment, simply visit **ABT**. Especially when the famous customiser announces a price offensive – and provides VW-, Audi-, Seat- as well as Škoda drivers with affordable extra power, suitable for everyday use. The special offer with a **discount of 30%** on all **ABT POWER** upgrades is available from **June 15<sup>th</sup> to July 13<sup>th</sup> 2012** at authorised **ABT dealers** in Germany and more than 150 partners in Finland, Austria and Hungary. To find your next **ABT dealer** please visit the dealer locator at [www.abt-sportslines.de/en](http://www.abt-sportslines.de/en).

The **ABT POWER Days** for young used cars discount is available for vehicles older than two years. **ABT POWER** is, of course, perfectly adjusted to the respective vehicle. The factory emissions class is also maintained, which means that the vehicle tax does not change at all.

Here's a tip for everyone who wants to experience pure motorsport feeling: At the headquarters of **ABT Sportsline** you can immerse yourself in the world of automobile technology while your vehicle is being "treated". That's the perfect moment for a stroll through the attractive showroom, where the new **ABT** creations are presented. The company museum is also worth a visit: reminisce about the good old days with technical highlights from past eras and the time will simply fly by. A trip to Kempten town centre with the Princely Residence, the Kornhaus or the St. Lorenz Basilica should also not be missed. After all, technical innovations have been developed in these unique surroundings for over 116 years.
