

ABT Sportsline 2020 – Press Release CW 12

‘S’ delivers even more power ABT Power S gives Audi RS4 530 hp – new aero components

Thanks to **ABT Power**, the Audi RS4 recently scaled new heights. Despite the performance upgrade from 450 hp to 510 hp (331 kW to 375 kW), peak performance is yet to be achieved. This is delivered by **ABT Power S*** as a new additional option. The effect of the high-tech control unit **ABT Engine Control (AEC)** is combined with an additional water cooler kit and an air intake cover. The result: 530 hp (390 kW) and 680 Nm – in comparison to the standard model, this is a boost of 80 hp (59 kW) and 80 Nm. In addition, an optional intercooler is also available.

Those wanting to make a visual statement will be delighted with **ABT Aero Components**. The world's largest tuner of Audi and VW vehicles offers for example, **ABT wheelhouse ventilation** adorned with real carbonfins. The Bavarian company also offers a gloss-finished CFRP **ABT rear spoiler**. Furthermore, down below, a new **ABT stainless steel exhaust system** is connected to the engine. Alongside the acoustic experience, an aesthetic enhancement of the vehicle awaits the customer: For this, **ABT Sportsline** installs a total of four carbon fibre end pipes, each with a diameter of 102 mm. To create a suitable framework, glossy black end pipe inserts are also integrated into the rear skirt.

As regards, alloy wheels, an attractive trio must be mentioned: The **ABT Sports Wheels DR** and **FR** are each available in 20-inch and mystic black. Alternatively, the model **GR** is available in glossy black or matt black in 20 or 21-inch. The dynamics of a vehicle are not only displayed in engine power, looks and acoustics. Therefore, as additional components, **ABT Sportsline** offers both **ABT height adjustable suspension-kit** and – alternatively – **ABT height adjustable suspension springs**. Both can be combined with **ABT anti-roll bars** for the front and rear axles upon request.

A whole host of new, perfectly matched options for the interior of the new Audi RS4 round off **ABT Sportsline's** styling portfolio. Along with the **ABT start-stop switch cap**, there is also an **ABT seat frame covers carbon refinement** and the **dashboard covers carbonfiber upgrade**. Other impressive options include the **ABT shift knob cover**, **integrated entrance lights** and full carbon **seat cover**. And the new **leather and carbon finish for the steering wheel** makes precision manoeuvring of the power estate even more fun. For an up-to-date overview of all components, visit the **ABT Configurator**.

*The engine performance data is in accordance with the stipulations of EWG/80/1269. The process and dynamometer manufacturer have been certified and authorised by the vehicle manufacturer. For further details, visit www.abt-sportsline.com/performance-measurement.
