TT RS-R

FROM THE RACETRACK TO THE ROAD.

ABT[®]

THE ABT TT RS-R FOR MAXIMUM DRIVING ENJOYMENT WITH THE STRONGEST TT

The series 2.5 liter petrol engine in the current Audi TT RS already provides an impressive 400 hp (294 kW) and 480 Nm. After optimization of the motor management by our specialists, the data sheet for the sportscar now boasts an impressive 500 hp (368 kW) and 570 Nm. This makes the ABT TT RS-R more powerful than any series Audi TT that was built up to now. But that is by far not all, because this complete vehicle in a **limited edition of 50 features** a whole range of additional visual and performance improvements. To ensure that the ABT TT RS-R provides an amazing driving experience, we installed our ABT suspension springs and sports stabilizers bars on front and rear axle. In addition the body received high quality add-on parts made of visual carbon which make it clear that this is a genuine ABT Audi.

You will find further information on the following pages or in our video on www.abt.digital/TTRS-R-Action

The body highlights of our super sports car with 500 hp includes the front spoiler, the exclusive front grille frame with a red TT RS-R logo, front flics and front blades, side skirt add-ons with side blades as well as a multi-part rear skirt add-on with a red TT RS-R logo to point out the concentrated power of the German sportscar. The stainless steel exhaust system with matt black double tailpipe trims ensures that the sound perfectly suits the exterior. The matching 20 inch ABT SPORT GR wheels in "glossy black" with diamond machined rim flange additionally underscore the added power of the coupé.

As a special model, this Quattro also deserves an appropriately exclusive sporty styling for the interior from ABT Individual. The standard seat panels as well as the side of the dashboard panel get a carbon coating. This completes the high quality, sporty appearance of the ABT TT RS-R which is more than ready to make its appearance on the road.

All components of our package are also available for the TT RS Roadster. Therefore, you don't need a roof to enjoy all the advantages of an ABT performance and styling improvement
