

ABT Sportsline 2019 – Press Release CW 48

New ABT e-Caddy can be ordered from end of November 2019 Leasing only – from 293 euros/month net

The first all-electric **ABT e-Caddys**, with long-wheelbase, can be ordered from the end of November 2019 at selected Volkswagen Commercial Vehicles Dealers and **ABT e-Line partners** and are expected to be available to customers as leasing vehicles in the first quarter of 2020.

ABT e-Line, the premium partner of Volkswagen Commercial Vehicles, is responsible for the "electrification". The company installs the electric motor, the electronics and the underfloor battery in the supplied basic vehicles in such a way to maintain the flexibility of the interior: Thus the Panel van version of the electric Caddy also has a load capacity of up to 4.2 cubic metres. The vehicle has a battery capacity of 37.3 kWh and is driven by a 200 Nm, high-torque electric motor with 83 kW of power.

Battery range up to 159 kilometres according to WLTP

In addition to the panel van version, the **ABT e-Caddy** is also available as a window panel van (kombi) and as a passenger car with Trendline specification. **ABT e-Line** electrified vehicles are designed to deliver a top speed of 90 km/h, or optionally up to 120 km/h. The combined range is a maximum of 159 km on one battery charge (up to 167 km in city traffic) according to WLTP. The battery is fully recharged with AC power via a 7.2-kW wallbox in around five hours, or can be charged to 80 percent capacity at a 50 kW quick charging station (CCS) in around 50 minutes.

Special instrument cluster with important additional information

The **ABT e-Caddy** is offered exclusively as a leasing vehicle, starting at 293 euros net* for the Panel van. The leasing rate calculation is based on the total price, starting at 29,900 euros. The **ABT e-Caddy** is completely suitable for everyday use, a modified instrument cluster indicates when the battery is charged by braking and when the drive style is particularly energy-saving. Currently, the **ABT e-Caddy** can be charged at over 42,000 charging points throughout Germany – or simply at home via a wallbox.

**= incl. Volkswagen's environmental bonus of 3,000 euros and one-off payment of 3,000 euros*
